

JAGUAR LAND ROVER

Jaguar House

Gamified Employee Onboarding

A next-generation onboarding prototype built on Next.js, React Three Fiber, and Framer Motion

6 CHECKPOINTS

Traditional onboarding falls flat

34%

of new hires decide to leave within the first 90 days

Gallup State of the Global Workplace

58%

of organisations say their onboarding is focused on paperwork, not people

Sapling HR Research

2×

more likely to remain after one year with a structured onboarding experience

SHRM Foundation

Drive. Stop. Learn.

A new joiner takes the wheel of a Jaguar F-TYPE and drives through a virtual version of Jaguar House. Each onboarding module lives at a physical location on campus — when you arrive, you complete it interactively before driving on.

01

Spatial

Onboarding mapped to real campus locations. Progress feels physical, not just digital.

02

Interactive

Each stop has scenarios, choices, and checks — not slides to click through.

03

Personalised

Content adapts to role, focus track, region, and manager — from day one.

Five stages, one continuous flow

1

Hero Landing

Cinematic brand arrival.
Sets the Jaguar tone from first load.

2

Cockpit Form

New joiner enters their details and focus track. Feels like the driver's seat.

3

Campus Drive

Free-roam third-person drive through Jaguar House district.

4

6 Checkpoints

Each module lives at a physical stop: HR, Safety, Training, Compliance, Team, Benefits.

5

Handover

Completion summary with decisions made, XP earned, and next steps.

Six checkpoints, six stories

STOP 01

Reception Gallery

HR Introduction

Badge, access, day-one essentials

STOP 02

Operations Studio

Safety Workshop

Emergency procedures, hazard basics

STOP 03

Product Atelier

Training Centre

Courses, coaching, shadowing plan

STOP 04

Governance Lounge

Compliance & Policies

Data handling, conduct, escalation

STOP 05

Collaboration Salon

Team Hub

Meet the team, roles, handoffs

STOP 06

Support Suite

Benefits & Support

Perks, wellbeing, where to get help

What makes it work

GAMEPLAY

- ▶ Third-person campus driving with camera shake and drift physics
- ▶ Road-constrained movement — you can't skip modules out of order
- ▶ Checkpoint zones with animated signs, halos, and scene lighting shifts
- ▶ XP and level progression across 5 tiers with 8 unlockable achievements
- ▶ Procedural audio engine — V8 soundscape that reacts to speed and zone

PLATFORM

- ▶ Branching scenarios — decisions tracked in session, visible in admin
- ▶ Focus-track personalisation: Retail, Events, Ops, Aftersales, Digital
- ▶ Backend session sync with shareable resume links and access codes
- ▶ Admin dashboard — completion rates, decision posture, CSV export
- ▶ SQLite session store, ready to swap for PostgreSQL or HRIS integration

Built on production-grade foundations

Next.js 15

App Router, server components, API routes, SQLite session store

React Three Fiber

Full 3D campus world, procedural road geometry, physics, camera

Framer Motion

All screen transitions, checkpoint overlay animations, parallax

TypeScript

Strict typing throughout — state machine, progression, modules

Tailwind CSS 4

Dark premium utility styling with CSS custom properties

Web Audio API

Procedural V8 engine audio — speed reactive, zone adaptive

HR has full visibility

The admin dashboard at /admin gives HR and programme leads a live view of every onboarding session — without touching the database.

Sessions

Total onboarding sessions started

Completion

Rate of new joiners finishing all 6 modules

Decision Tone

Breakdown of risk vs considered choices per joiner

Focus Track

Retail / Events / Operations / Aftersales split

Checkpoint Drop

Which modules see the highest abandonment

CSV Export

One-click export of any filtered session slice

See it in motion

Suggested walkthrough for the demo:

- 1 Open the app — land on the hero screen. Point out the Jaguar brand tone and the "Launch the Drive" CTA.
- 2 Enter the cockpit form. Fill in a name, select a role (e.g. Retail Experience), and choose a start date.
- 3 Take the wheel — drive to the nearest checkpoint. Show the road network, lighting, and HUD.
- 4 Complete Checkpoint 1 (HR Introduction). Walk through one choice step and the checklist.
- 5 Show the admin dashboard at /admin — sessions table, completion rate, and decision posture chart.

From prototype to production

QUICK WINS

- ▶ Connect to real HRIS via the employee directory HTTP provider
- ▶ Replace sample data with live Workday / SuccessFactors records
- ▶ Add real Jaguar campus imagery as zone backgrounds
- ▶ Enable email notifications when a new joiner completes onboarding

PRODUCTION PATH

- ▶ Replace procedural world with photogrammetry Jaguar campus scans
- ▶ Expand checkpoint modules into full multi-day learning journeys
- ▶ Integrate LMS (Cornerstone, Degreed) for tracked completion data
- ▶ Add manager dashboard and 30/60/90-day progress reports

JAGUAR LAND ROVER

Every great journey starts with onboarding.

Thank you

Questions welcome
